Vinay Kumar

Data Analyst

Data analyst with **6+ years** of experience who turns messy spreadsheets into decisions a manager can act on. Writes **SQL and Python**, builds **Tableau dashboards**, and puts together quick **Excel models**. Project work spans sales, finance, supply chain, and customer behavior, including demand forecasting, and **machine learning models** that predict outcomes **across 8+ projects**. Comfortable explaining findings to nontechnical audiences.

WORK EXPERIENCE

Data Analyst

Neelam Cycle

February 2020 – Present

- Analyzed business and operational records in **SQL and Excel** to spot sales trends and process improvements.
- **Identified** the **main causes of product damage** and recommended fixes **that cut damage by 75%.**
- Developed **predictive models** on market trends to guide stock levels and inventory planning, contributing to a **12% revenue increase**.
- Applied **machine learning** to EV operations, **building regression models** that forecast delays for parts and vehicles from shipment and vendor records and giving the supply chain team early warning.
- **Presented findings** to **non-technical stakeholders** through **Tableau dashboards.**
- Segmented customers to clear excess stock and sharpen sell-through.

Data Analyst Trainee

Cuvette Tech

June 2025– September 2025

- Completed **10+ hands-on projects** in **4 months** across **business analysis, visualization, and predictive modeling**.
- **Wrote 80+ SQL queries** and **produced 50+ Excel reports** with formulas and PivotTables.
- Trained a classification model that predicts hotel cancellations with **80%** accuracy.
- Designed **70+ interactive Tableau dashboards** covering population, profitability, margins, and shipping speed.

PROJECTS

TOP 2000 COMPANIES FINANCIAL ANALYSIS | (Excel)

- Examined financial metrics across **2,000 companies** using **formulas** and **PivotTables**.
- Spotted outliers and recurring patterns that point to business-relevant trends.

TECHNICAL SKILLS

Languages: Python, SQL

Machine Learning: Classification, Regression, Logistic Regression, Predictive Modeling

Visualization & BI: Tableau, Looker Studio, Dashboard Development.

Excel: Formulas, PivotTables

Analysis: Data Cleaning, Exploratory Analysis, Trend Analysis, Customer Segmentation, Forecasting

CERTIFICATES

- **Data Science Course Certificate**
- **Excel Module Completion Certificate**
- **SQL Module Completion Certificate**
- **Tableau Module Completion Certificate**
- **Machine Learning Module Completion Certificate**

EDUCATION

Bachelor of Engineering in Information Technology

University institute of Technology, University of Burdwan

July 2014 to June 2018

LANGUAGES

English **Hindi** **Bangla**

GLOBAL RETAIL SALES ANALYSIS | (Excel)

- Compared regional sales to gauge business performance.
- Built **interactive dashboards** to monitor sales results at a glance.

OLYMPICS DATA ANALYSIS | (SQL)

- Queried athlete performance, medal tallies, and country participation.
- **Organized raw records into clean result** sets for easy comparison.

BIKE STORE SALES ANALYSIS | (SQL)

- Studied seasonal sales trends and buying patterns across product categories.
- Highlighted how different products and customer groups performed.

WORLD POPULATION ANALYSIS | (Tableau)

- Visualized demographic shifts, growth rates, and regional comparisons.
- Made the **visuals interactive** so viewers can explore trends themselves.

SUPERSTORE SALES & PROFIT DASHBOARD | (Tableau)

- Designed a **dashboard tracking sales**, **profit margins**, and **shipping performance**.
- Surfaced business trends and performance patterns in one view.

HOTEL BOOKING CANCELLATION PREDICTION | (Machine Learning)

- Trained a **logistic regression model** to predict booking cancellations with **80%accuracy**.
- Explored booking data to find patterns behind cancellations.

DELIVERY DELAY PREDICTION | (Machine Learning)

- **Developed a regression model** that forecasts delivery delays from shipment and vendor data.
- Supported proactive supply-chain planning with the predictions.
